

Rights of Psychosocial Disabilities in the Philippines

Encyclical of Pope Ronnel Jr. D. Bautista

On the issue about the Rights of Psychosocial Disabilities in the Philippines

November 12, 2022

Greetings Children of hope of the future,

I know that there are a lot of happenings to the world right now. May be one of us really have our own issues or problems that we don't know if we can solve it, just remember that God is there to support us in our different battles just call God and talk to him and you will see the answer to your problem.

Introduction

In our world or society, we have people that is very wealthy, Poor, average people and with Psychosocial Disabilities. We people don't treat the same treatment with regards to the position that we are living as well as with the disabilities. In our society if we say a disability the one that come up to us is maybe they can't do anything like the normal person. Psychosocial Disabilities is facing a lot of form with regards to discrimination, how a psychosocial Disabilities should be in our society. Having this kind of issues, it will be a barrier to exercising their right with Civil, Economic, Social and Cultural Rights because they have this Disabilities.

Situation

According to Human right Watch in the Globally it says that in 700 million people in the world or 1 in 10 people there are 1 in 5 children have a mental Health Condition. They got a treatment that they will put a child or a

person in a cage, Animal Shelters and tried to force them to eat on that place, Sleep, and other things that people do. This kind of Disabilities will heighten by urbanization, The Increasing of poverty, insecurity, Migration, hunger, and Conflict to the society. It also says that many of have this kind of Disabilities 80 percent of people that is living in middle or low-Income Countries and Philippines is one of that. The people like this one can't go outside because they might do something. Some people says that this kind of Disabilities is only a spirit or evil spirit that possessed the person that is the only way that they can do because they can't put the person to a isolation place which is for the same Disabilities and they will treat them nicely and heal them, But the people don't want to do that because they know that if they put the person there is a fee for that and that is the problem we have in the Philippines.

Teaching of the Church

The light and hope

As a people of this Society or in this Country we people have purposes in our life we can be a person that will help to build or to heal people, We can be a person that will help the poor to be able to go up and change their part in the society, We can also be a person that will give advices or sharer to the Gods Word. We can be anything in this world, God give us this life to help others when needed. "Sell your possessions and give to the poor"(Luke 12:33-34) This verse is intended to the people that have many blessings or not much but have a small that if you have something give it to the people that needed it will not be a lost for you because you still have more. Psalm 41:1 Blessed is the one who considers the poor! In the day of trouble, the Lord delivers him.

His disciples asked him, "Rabbi, who sinned, this man or his parents, that he was born blind?" 3 Jesus answered, "Neither this man nor his parents sinned; he was born blind so that God's works might be revealed in him. 4 We[a] must work the works of him who sent me[b] while it is day; night is

coming, when no one can work. (John 9:2-4 Rabbi). We people says that if the person have disabilities it is because of Karma or they did something wrong to a person and the Child will be the result of that, that is wrong because just like on the story of a man born blind and the God Healed him. It is the same as that in disabilities God can heal that person by his word and love.

Action

We people should treat the people with disabilities the same as the normal person because yes they have this kind of Disabilities does that mean that they cant do anything in this world or is that really the end for them no because they are still a person in this world that god blessed and anything that god Created is a perfect if a person is imperfect then its not their fault why they are in that position. Maybe they have a rule in this world. Maybe there is something that they can do to help the world.

So as a Person or a Youth in this world we should do something about taking care of this kind of people they can breathe, they can eat, they can Drink and many more that is the same as the normal person. So, we should treat them equally and help them. We people if we have something that can help the other people make a move because that is the purpose that we are here in the first place to help each other and make the world a better place to be lived in.

Conclusion

We must Value the life of all the people even though they are different to a normal person we must always remember that we are all the same, We are the exact image of God and God words will help thouse who needs to be healed. We people must thankful that we don't have any disabilities so we must make sure that we use this opportunity to help the one that have

disabilities because just like on the verse of Hebrews 13:16 do not forget to do good and to share with others, for with such sacrifices God is pleased. If someone need our help then give it to them, No one is an island.

We people also remember that people that have disabilities, they don't want it, it just there so we must treat them more because who is the one that will help them, We are so we must not think that it is a carma or anything that will hurt or even make worst their situation.

Philippines, Batanagas on 12 November, in the year 2022
